

SUBJECT FEES (YEAR 9 2018)

These vary each year with each subject. These fees include charges for

- Consumables – items that the student uses as part of their course.
- Workbooks – these can be either bought and written on or used in the same way as a text book, where a deposit will be charged. At the end of the year the deposit is refundable, if the workbook is returned in good condition and without being written on and can be reused by another student. The refund can then roll onto the following year. The school strongly recommends the purchase of workbooks for students.
- School trips – costs vary with the number of students. An indication of likely cost is given so you can plan for it.
-
